Dear Mr. Derickson:

RE: Coralville Lake Project Environmental Assessment

I have received your packet of early coordination material from Steve Larson. At this time the Iowa DOT has no comment or concerns about the Coralville Lake project location for the Environmental Assessment. For future reference I would like to obtain a copy of the completed assessment.

Thank you for your interest in our comments. Any impending correspondence on the assessment can be directed to me.

Sincerely,

Kris Riesenberg  
Office of Environmental Services
