Subject: Camp Daybreak Proposal
Importance: High

To Whom It May Concern,

33-12 [I am writing to formally register intense concern over the proposed leasing of camp Daybreak.] [I am writing despite the fact that I feel the Army Corps of Engineers will utterly ignore my communication.]
 22-4 [Observation of the "process" over the past 3 years has led me to this cynical conclusion.]

2-7 [First of all, I want it clearly understood that my reaction to the current Camp Daybreak proposal has absolutely nothing to do the the lessee. IT IS THE SCOPE OF THE PROJECT to which I object.]

I know that dozens of concerned individuals have thoroughly articulated specifics regarding:

- 31-3 [* Significant math and science flaws in the recent environmental study.]
- 27-2 [* Waste disposal concerns.]
- 22-4 [* Traffic issues for Scales Bend Road - including the dangerous turn onto 200th St.]
- 28-10 [Disruption of our lives due to noise and traffic.]
- 25--

The Army Corps of Engineers has tremendous autonomy in our federal system. Still, this facet of our government must surely remain accountable to the citizens of the United States. The bottom line is that we live and function in a democracy. I implore you to heed the wishes of the Johnson County Board of Supervisors, the City of North Liberty, and those of us who will be directly affected by this project. [The scope of the currently proposed plan is unacceptable.] Review the plan, review you own guidelines (i.e. the master plan relating to reservoir shoreline), and reduce the allowable size of this project!

Respectfully Submitted,
 Vicki Bachman
