Karen, I was told that you are the person to contact to express my opposition in regard to the U.S. Corp. of Engineers, allowing a Muslim Youth camp to be constructed on Federal land near the Jolly Roger recreation area, at the Coralville Reservoir near North Liberty Iowa. I want it to be known that I myself, as well as anyone else I have spoken to, who now lives in the area, or currently uses the recreational facilities at the Coralville Reservoir, are strongly against a Muslim youth camp being developed on any Federal land, anywhere in this great nation that we live in. ( We are very concerned citizens, against this!) If a Religious group wishes to have a camp, or retreat, to go to , they need to go out and purchase some private land for this! I do not feel we as citizens in this area should YIELD, or give up our public lands for a group like this! What about some of our local clubs and organizations? How about making a public use area out of this land? The camp grounds are always full on Holidays. Maybe we could let some local folks develop some Fourwheeler trails, or Snowmobile trails in this area, instead of attracting and drawing Muslims into this community. Do you realize that by allowing this so called Youth Camp, or retreat to come to this area, that it will encourage foreign Muslims to come here for a Retreat exercise? So much for keeping Terrorism out of the Heart land, huh? Do you people realize where these Muslims will be coming from? Enough said at this point! Please do what you can to represent the majority of the citizens in the North Liberty area on this issue. Thank-You. Respectfully, Robert Hamer.
