23-5 I am very much apposed to this effort to get this camp on the lake. I am a former resident of North Liberty, and still shop there since my options are either Iowa City or Cedar Rapids. I frequently drive there, just for it's beauty and pristine areas. My hairdresser is directly across the road from the property you want to use. As an elderly person, I appreciate the lack of traffic--- which will change--- the birds in the trees that I watch---which will change... and those trees!! They will be gone. Private housing is one thing but a camp? And why? There is no access to that lake for private property, unless you intend to change the rules for this group only, then I ask, are we not all citizens of the same country????

I pray this does not happen.... please reconsider.... again I say, for many reasons, I am extremely opposed to this.

Norma L. Vogt
