**CLOSURE OF FOUR LOCKS ILLINOIS RIVER**

1. The District Engineer has reviewed input from carriers, shippers and other users of the Illinois River Navigation System. There have been numerous contacts requesting some degree of delay of the closure as well as numerous requests to maintain the current schedule. Several other factors have also been considered - The forecast as of 8 June as to traffic resumption on the Mississippi and Illinois Rivers, costs to the Government and the Inland Waterway Trust Fund as a result of ordering the contractors to suspend work for some period of time, and the possible lengthening of the closure period as a result of delaying the period into a less favorable weather period.

2. Weighing all factors, it has been determined that the closure period shall remain as scheduled for the four locks. The closure period shall be as previously announced - close at 12:01 A.M. July 11, 1995 and open for traffic 11:59 P.M. on September 8, 1995. The locks affected are:

|                     |    |       |
|---------------------|----|-------|
| LOCKPORT LOCK       | RM | 291.0 |
| BRANDON ROAD LOCK   | RM | 286.0 |
| DRESDEN ISLAND LOCK | RM | 271.5 |
| MARSEILLES LOCK     | RM | 244.5 |

LOCK OPENINGS, ILLINOIS WATERWAY

LOCKPORT LOCK, BRANDON ROAD LOCK, DRESDEN ISLAND LOCK, MARSEILLES LOCK

The Rock Island District U.S. Army Corps of Engineers will begin opening four closed locks on the Illinois Waterway to all navigation traffic at 11:59 p.m., Monday, Sept. 11, 1995.

The openings of the locks listed are delayed due to a variety of reasons including additional gate work at Lockport, overbreaking of concrete at all sites, labor availability, and sparse production rates.

These locks will open to all navigation traffic at 11:59 p.m. on the dates listed below:

|                     |       |                   |
|---------------------|-------|-------------------|
| MARSEILLES LOCK     | 244.5 | 11 September 1995 |
| DRESDEN ISLAND LOCK | 271.5 | 14 September 1995 |
| BRANDON ROAD LOCK   | 286.0 | 19 September 1995 |
| LOCKPORT LOCK       | 291.0 | 22 September 1995 |

We are continuing to press for an accelerated opening at all locks. We will open the locks as soon as possible, but this delayed opening schedule is our best expectation of having the lock chambers filled and the gates operational.

FOR THE DISTRICT ENGINEER:

JAMES H. BLANCHARD, P.E.  
Chief, Operations Division
