| Is or would be used as habitat for birds protected by Migratory Bird Treaties?  | <input checked="" type="checkbox"/> |                                     |  |                       |                                |
| Is or would be used as habitat by other migratory birds that cross state lines? | <input checked="" type="checkbox"/> |                                     |  |                       |                                |
| Is or would be used as habitat for endangered species?                          |                                     | <input checked="" type="checkbox"/> |  |                       |                                |
| Is used to irrigate crops sold in interstate commerce?                          |                                     | <input checked="" type="checkbox"/> |  |                       |                                |

<sup>1</sup>Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

TYPE OF DETERMINATION: Preliminary  Or Approved

OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs):

*Wetland Determination conducted by Larry J. Roehl shows the wetland, adjacent to existing railroad track, does not have an overland connection to other waters of the United States. It is, therefore, isolated.*  
*M. Hayes 10/17/05*

TYPE OF DETERMINATION: Preliminary    Or Approved   X  .

OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs): According to historic aerial photos and maps, there was a stream connection to these wetlands. With modern farming, the land was tilled and the small stream was relocated to the farm fenceline and outletted into the county road ditch. The ditch is narrow and incised with no OHW indicators. The wetlands extend into the county road ditch serving as a connection. However, ¼ mile of road ditch, between the wetland and the nearest jurisdictional stream, is non-wetland and does not exhibit a definable stream channel.

TYPE OF DETERMINATION: Preliminary  Or Approved

OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs):

NOTE TO FILE: (2005-1618)

DATE: November 15, 2005

I determined the identified 0.92-acre wetland is isolated in accordance with the U.S. Supreme Court decision in Solid Waste Agency of Northern Cook County vs. U.S. Army Corps of Engineers..

It is separated, by an approximately 30 feet wide strip of upland, from a man-made ditch that is at this time is not connected to the Missouri River. The applicant's consultant says in his report that the ditch will be connected to the River in 2006. The ditch, at the time of the request for a jurisdictional determination, is dry and apparently only carries drainage from the existing airport runways after a rainfall event. Ground photos sent by the applicant's consultant do not indicate the presence of an ordinary high water mark in the man-made ditch. The elevation of the identified wetland is approximately 6 feet higher than the flow-line of the ditch.

Therefore, it was concluded that the identified wetland lacks an over-land, hydrologic connection to other waters of the United States, and is isolated.

Mike Hayes

CEMVR-OD-P-2005-1671

#### JURISDICTIONAL DETERMINATION

The identified 0.85 acre emergent/scrub-shrub wetland is situated in a cropped field approximately 1 mile northwest of the Mississippi River. It has no over-land hydrologic connection to any tributaries connecting to or other wetlands adjacent to navigable waters of the United States.

The wetland is isolated in accordance with the U.S. Supreme Court's S.W.A.N.C.C vs. U.S. Army Corps of Engineers decision.
