I'm very concerned with the intention of this project and were the residents lives taken into consideration at all. **It** appears not.. Their way of life would be changed too dramatically.. The value of their property, the quietness of the life they chose when purchasing their homes.. This project **is** putting no value on their lives and how it affects **them**.. Also putting this specific religious project in this area. This area is not Muslim... **The Iowa City area** is very active to being open to all, none **discriminatory** to any race or religion. **[If there was to be a youth camp . . . should it not be open to any Youth. Without any Label attached ?]** I sense other factors to this project that are not made known to the community.. And in the big picture of things . . this is not a time to ignore Integrity.. Integrity to the good of **all** is where we are now.. This should be honored ! My purpose of sending this message **is** that you seriously reconsider allowing this project to move forward.

Sincerely,  
Scherie Gates
