I want to register my negative vote concerning the plans for a Muslim camp on the reservoir. Many Muslims hate us and don't trust them to have a camp with easy access to our water supply. The individuals who are trying to set up the camp may not be dangerous but they may be infiltrated with or threatened by some who are. I can't believe anyone could seriously consider letting them have a camp so close to our water supply. And in addition, I don't want our taxes to pay for all the additional costs that would be necessary.]
