Status

Project is in operation.

Description

Coralville Lake is a multiple purpose project providing primary benefits in flood control and low-flow augmentation with secondary benefits in recreation, fish and wildlife management, forest management, and water quality improvement. Conservation pool is 5,400 acres; and the flood control pool is 24,800 acres with 475,000 acre-feet of storage. The dam is located on the Iowa River just upstream of Iowa City. Cumulative nominal damages prevented since projects inception (1958) ~ \$367,000,000. The project includes 24,591 acres of fee title lands and 11 recreation areas. Typical recreation fee receipts and lease revenues are \$600,000, with regional economic impact of project visitation of \$24,800,000 from an estimated 1,200,000 visits.

Summarized Project Costs

FY 2017 President's Budget	\$4,326,000
House Allocation for FY 2017	TBD
Senate Allocation for FY 2017	TBD
FY 2016 Allocation	\$4,219,000

Additional Project Information

These numbers represent an illustrative distribution of operation and maintenance activities subject to revision during the course of the year, and therefore individual project estimates should not be considered as budget amounts.

Major Work Item (This Fiscal Year)

Funds are used for routine operation and maintenance of the flood control work and related infrastructure; minimal operation and maintenance of day-use and overnight recreation areas and facilities; and minimal annual stewardship activities to protect the health, sustainability and integrity of the public lands associated with the project. Funds also provided for USACE Pilot for Plug-In Electric Vehicle Charging Station.
