Description

The Rock Island District is prepared to provide all hazard response and recovery assistance under the authority of Public Law (PL) 84-99 and PL 93-288. All hazard events include flooding, earthquakes, tornados, etc. On a national basis the District will respond to incidents of national significance such as hurricanes and weapons of mass destruction.

The District Crisis Management Team consisting of senior staff elements is trained and ready to respond to disasters. Prior to flood season, trained Flood Area Engineer teams conduct annual inspections of the District flood protective systems in coordination with local sponsors. Flood fight supplies are stockpiled and flood fight equipment is serviced.

The District maintains trained cadre members to assist FEMA in accordance with the Stafford Act (PL93-288) and the National Response Framework. The District Unwatering Task Force will provide Command and Control to the New Orleans Unwatering Team in the event of a disaster impacting the Greater New Orleans Metropolitan Area.
