

Little Fox River, 151 County Bridge, Clark County, MO - CAP Section 14

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG ®

Location

Clark County, MO.

State(s)

MO

Congressional District(s)

MO-6

Status

Funding was provided to finish the Feasibility Report in FY-14. Near completion of the Feasibility Phase the non-Federal Sponsor terminated the project because they did not have the funding available to move ahead with the project.

Description

The Fox River 151 County Bridge (#151000101) is experiencing severe erosion on both the east and west banks encroaching on both bridge abutments. The river also continues to remove earth embankments upstream of the bridge causing further degradation near the bridge. The continued degradation has caused approximately 560 linear feet of bankline, vegetation, and trees to erode. The opportunity exists to stabilize the both stream banks upstream of the bridge providing protection for the bridge abutments. If left untreated the bridge and a critical transportation route may be lost.

Summarized Project Costs

	Feasibility
Estimated Federal Cost	\$100,000
Estimated Non-Federal Cost	\$ 0
Total Estimated Project Cost	\$99,953
Allocation thru FY 2013	\$ 97,700
FY 2014 Allocation	\$ 2,253
Budget for FY 2015	\$ 0
Balance to Complete	\$ 0

Major Work Item (This Fiscal Year)

N/A - Project was terminated.

Major Work Item (Next Fiscal Year)

N/A - Project was terminated.
