

Yellow River, Freeport, IL - CAP Section 205

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG ®

Location

Freeport, IL

State(s)

IL

Congressional District(s)

IL-17

Status

Awaiting New Start funding.

Description

The City of Freeport, Illinois is interested in completing a Flood Risk Management study with the U.S. Army Corps of Engineers to determine if there are any measures that could be implemented to reduce future flood damages. The Yellow River is threatening public infrastructure in Freeport, IL. The Illinois Route 26 corridor on the south side of Freeport has experienced major flooding events in 2010 and 2011. The flooding damaged some residential neighborhoods and a commercial area adjacent to IL Route 26. The flooding also closed IL Route 26 for an extended period of time. An opportunity exists to implement Flood Risk Management measures to protect lives and property.

Summarized Project Costs

	Feasibility
Federal Cost	\$100,000
Non-Federal Cost	\$ 0
Total Cost	\$100,000
Allocations through FY 2015	\$100,000
Allocation for FY 2016	\$ 0
Balance to Complete	\$0

(Note: Costs for Initiation of Feasibility Study only are presented. Total Project cost TBD)

Major Work Item (This Fiscal Year)

None (no funding).

Major Work Item (Next Fiscal Year)

Initiate Feasibility, pending funding.
